Press Release

FOR IMMEDIATE RELEASE

Garland, TX -- Rackmount Solutions, Ltd. obtains ISO 9001:2000 Quality Management System certification.

About ISO

ISO (International Organization for Standardization) is the world's largest developer and publisher of International Standards. ISO began operations on 23 February 1947.

ISO is a network of the national standards institutes of more than 150 countries, with a Central Secretariat in Geneva, Switzerland, that coordinates the system. More than 100 of ISO's members are from developing countries

ISO 9001:2000 specifies requirements for a quality management system where an organization needs to demonstrate its ability to consistently provide product that meets customer and applicable regulatory requirements, and aims to enhance customer satisfaction through the effective application of the system, including processes for continual improvement of the system and the assurance of conformity to customer and applicable regulatory requirements.

About Rackmount Solutions

Rackmount Solutions is an industry leader in supplying server racks, cabinets, wallmount racks, network racks, LAN racks, portable shockmount rackmount cases, rackmount monitor/keyboards and accessory products for the IT/Network professional. We deliver rackmount storage solutions for 19", 23", 24" and 28" wide equipment. In conjunction with leading USA rackmount metal manufacturers, we assist in developing new/improved products for the industry.

We are committed to providing products and service that meets or exceeds the quality and reliability requirements of our customers. We will continually set, monitor and improve our Quality Management System goals that meet or exceed the changing requirements of our customers, both internal and external.
